

Services

✓ Personalized Care Plans

The transition to hospice care can be challenging for both patients and their loved ones. At Aster, we aim to ease this journey by providing compassionate hospice care services focused on comfort and dignity, helping your loved one live their final stages in peace.

✓ Pain and Symptom Management

Our experienced doctors and nurses develop strategies for effective pain and symptom management, ensuring your loved one remains comfortable throughout their care.

✓ Physician Services

Collaborating closely with the patient, our team ensures all medical needs and preferences are addressed with clinician visits and ongoing communication. We can collaborate with you and your primary care physician (if you elect) or you may utilize our hospice physician.

Why We Stand Out

Nurse-Owned and Operated
As a nurse-owned organization, we bring a unique perspective to quality hospice care. We understand the needs of our patients on a deeper level and are dedicated to providing care that is tailored to each individual. Our background in nursing ensures that we approach every situation with empathy, expertise, and a commitment to patient-centered care.

Understanding Hospice Care

Hospice care is a celebration of life, focusing on providing comfort care and a personalized pain management plan for individuals facing terminal illnesses. At Aster, we believe in involving patients and their loved ones in every step of the care process, utilizing a holistic, team-oriented approach. Our committed team is comprised of medical professionals, social workers, spiritual advisors and volunteers who collaborate to provide comprehensive support.

We've Got You Covered

- ✓ Accredited by The Joint Commission
- ✓ Certified by Medicare
- ✓ Licensed by California Department of Public Health

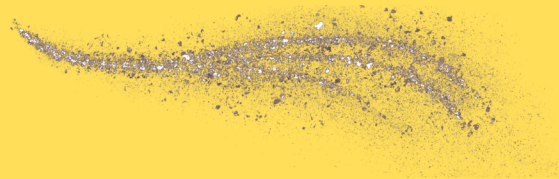

No Cost To You

Aster manages the costs associated with medication, medical equipment and other supplies related to the patient's terminal diagnosis by coordinating with insurance providers to ensure accessibility and ease of access.

Beyond Physical Needs

At Aster, we recognize the importance of emotional and spiritual support during the hospice care journey. Our compassionate medical social workers assist with paperwork and provide support, while our chaplain and bereavement teams offer spiritual guidance and assist with end-of-life arrangements. This service is available to our patients upon request.
